

Nonionic Surfactant • Irrigation Injectable Formulation

HYDRO-WET® INJECTABLE

Principal Functioning Agents

14.0%.....Polyoxyethylene
polypropoxypropanol,
glycol butyl ether blend
86.0%.....Total other ingredients
100.0%...Total

KEEP OUT OF REACH OF CHILDREN

WARNING

Hazard Statements

May be harmful in contact with skin. Causes mild skin irritation.

Precautionary Statements

Wash thoroughly after handling. Wear protective gloves/eye/face protection.

First Aid

Call a poison control center or doctor for treatment advice.

If Swallowed: Call a poison control center or doctor immediately for treatment advice. Have the person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.

If in Eyes: Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

If on Skin or Clothing: Take off contaminated clothing and wash before reuse. Rinse skin immediately with plenty of soap and water for 15 to 20 minutes.

•**HYDRO-WET INJECTABLE** is designed to enhance the infiltration and penetration of water applied through irrigation systems.

•**HYDRO-WET INJECTABLE** can be applied through all conventional irrigation systems or by conventional ground spray equipment.

•**HYDRO-WET INJECTABLE** can be safely applied as a preventative and curative treatment to improve irrigation efficiency and enhance turf quality.

Follow technical information and instructions from equipment manufacturers when approved. When used according to directions, **HYDRO-WET INJECTABLE** will not harm fine turfgrass.

Directions For Use—For General Turf Use

Golf Course Greens, Tees, Fairways, Lawns & Sports Turf

Injection Application: Inject 12 to 24 fluid ounces (360 ml to 720 ml) per acre (0.5 hectare) on a monthly basis.

Injection Application For More Difficult Areas: Inject 48 fluid ounces (1,440 ml) per acre (0.5 hectare). **HYDRO-WET INJECTABLE** can be applied through all injection systems.

Ground Spray Equipment: Apply 1 to 2 fluid ounces (30 ml to 60 ml) per 2 gallons (8 litres) of water per 1,000 square feet (100 square metres).

Tank Mixing

Tank mix combinations containing **HYDRO-WET INJECTABLE** have not been tested under all growing conditions. Applicator should follow instructions of pesticide label to determine such use. Always exercise caution when using wetting agents with other commonly used turf chemicals and fertilizers. Test a limited turf area prior to large scale applications.

Storage and Disposal

Do not contaminate water, food, or feed by storage or disposal.

Storage: Store above 32° F. Keep container tightly closed. Store in original container only. Store in a well-ventilated place. Keep cool.

Disposal: Wastes resulting from this product may be disposed of on site or at an approved waste disposal facility. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit www.acrcycle.org. Dispose of contents/container in accordance with local/national regulations.
